

# Keywords: Autumn 2

## Year 9 Maths

### Class 7-5

**Topic Title:**

**Algebra, Shapes and Area and Perimeter**

**We will be linking the use of algebra to finding the perimeter and area of various 2d and 3d shapes.**

<b>Keyword</b>	<b>Definition</b>
<b>Term</b>	<b>A single number or variable used in algebra</b>
<b>Variable</b>	<b>Letters used in algebra</b>
<b>Coefficient</b>	<b>Number in front of variables (letters) expressions or equations</b>
<b>Expression</b>	<b>A series of terms which are simplified but not solved.</b>
<b>Equation</b>	<b>A series of terms which are simplified and solved.</b>
<b>Perimeter</b>	<b>The distance around the outside of a 2d shape.</b>
<b>Area</b>	<b>The total space taken up by a 2 d shape or flat surface.</b>
