

# Keywords: Autumn 1

## Computer Science

**Topic Title: Communicating appropriately, E-safety and Cyberbullying**  
**Introduction to the topic: Learning how to use digital platforms to communicate appropriately in and outside of school.**

**What lessons will you cover during the topic? Use of iPads to access school software and online apps, staying safe on the Internet and the effects of Cyberbullying.**

Keyword	Definition
EduLinkOne	This is an iPad application that allows students to access information such as timetables, homework and reward / behaviour points.
Microsoft Teams	This is an iPad application that allows students to access lesson resources, lesson assignments and homework assignments.
Internet browser / Web browser	A piece of software that allows access to websites via the Internet. Examples are Safari, Google Chrome, Internet Edge (formerly Internet Explorer).
Strong password	A strong password is a password that is difficult to guess. A strong password should contain lower case and upper case letters, numbers and special characters.
Secure (password)	A password should be kept secure. This means you should not share the password with other people as they would be able to access your personal files or details.
Account	Your personal storage space for storing files and saving work.
E-Safety	Keeping safe online while accessing websites, social media sites or communicating via applications or games.
Cyberbullying	The act of bullying someone online or using any digital device such as a mobile phone or gaming headset/microphone.
