

## Type N4DCL Combination Lock Management – Lock Locked Open

1/ Lock is locked, but in the 'door open' position

2/ insert the management key in the lock

3/ Turn the key clockwise

4/ rotate the dials towards the key until they stop turning – they will stop at the correct code [in this case 6319]

5/ Turn the key back and remove

6/ turn the lock to the closed position and scramble the code to lock the lock
